Lean thinking is a business methodology that aims to provide a new way to think about how to organize human activities to deliver more benefits to society and value to individuals while eliminating waste. The term lean thinking was coined by James P. Womack and Daniel T. Jones to capture the essence of their in-depth study of Toyota's fabled Toyota Production System.

What is Lean 6S . Many companies will tell you that they implement lean 6S; 6S being 5S plus the added step of safety. 5S is a methodical method to improve your housekeeping and standardize your processes making them more efficient and less stressful for your employees. 5S benefits are many, higher efficiencies, less stress, fewer accidents, higher levels of quality, fewer breakdowns and so on.

Lean manufacturing or lean production, often simply "lean", is a systematic method for waste minimization ("Muda") within a manufacturing system without sacrificing productivity, which can cause problems. Lean also takes into account waste created through overburden ("Muri") and waste created through unevenness in work loads ("Mura"). Working from the perspective of the client who consumes a ...
