Get finished with the guide by selecting a directory in your drive to save the project. Documentation Specifics. As you know, the simplest way to write a comment in both Objective-C and Swift is to use the two slashes as shown below:

**Documenting Your Objective-C and Swift Code in Xcode**

I know this question is old but I thought I would share this as I could not find anything similar. I wanted to create my views/models as normal using Razor and have them rendered as Pdfs.. This way I had control over the pdf presentation using standard html output rather than figuring out how to layout the document using iTextSharp.
