of bare bulbs, light is directed to the desired places. In a good lighting design, light sources are not seen, only the reflection of their light off a variety of surfaces. The quality of lighting is changed by uplighting (more dramatic), downlighting (more natural), side - lighting (emphasizes details), or backlighting (emphasizes form).

Outdoor wall mount lighting can create an inviting atmosphere by highlighting features of a building or structure. Building mounted lights also assists in creating ambient light for pedestrians and increase safety by illuminating potential danger to passerby. Wall-mounted lights can contribute to the overall architectural styling of the building.

Modeling Light Pollution from Population Data and Implications for National Park Service Lands here are many factors that affect nighttime sky brightness, both natural and human-made. It is useful to think of what the main light sources are and how this light is scattered. The natural sources come from stars, the Milky Way, airglow, and moonlight.
