The transition state of a chemical reaction is a particular configuration along the reaction coordinate. It is defined as the state corresponding to the highest potential energy along this reaction coordinate. At this point, assuming a perfectly irreversible reaction, colliding reactant molecules always go on to form products. It is often marked with the double dagger † symbol.

Transitional words and phrases provide the glue that holds ideas together in writing. They provide coherence (that hanging together, making sense as a whole) by helping the reader to understand the relationship between ideas, and they act as signposts that help the reader follow the movement of the discussion.
