Understanding State-Building from a Political Economy

Economists have been struggling to define the role the state should play in the economy, and thus to define the economic functions of the state and extent of its interference in the economy. If the current tendency holds up, the state will continue to shrink as a result of global processes.

How much state in the economy? - CEED Institute

interact with the economy; to discuss these policies and measures in the context of the potential means by which a premodern state may influence a premodern economy; and at times to compare the Chinese historical experience with that of early modern Europe from the fifteenth to the eighteenth centuries.
