In statistics, the standard score is the signed number of standard deviations by which the value of an observation or data point is above the mean value of what is being observed or measured. Observed values above the mean have positive standard scores, while values below the mean have negative standard scores. The standard score is a dimensionless quantity obtained by subtracting the ...

ACT scores range from a low of 1 to a max score of 36. Overall, ACT test scores are the average of test-takers' sectional scores (also 1-36) in English, Math, Reading, and Science. So what is a good ACT score? The ACT score range for students admitted to different colleges varies, and the average ACT score is 20.8. However, various factors will affect what a "good" ACT score is for you.

Yes, this is changing for those who take the test in August and September. Because ETS, the organization that issues the GRE, will not have a pool of scores to work from in calculating grades, you won't be able to see your score right after you take the test, and won't receive your score report until mid-November.
