

the packaging and design pdf

Packaging is the science, art and technology of enclosing or protecting products for distribution, storage, sale, and use. Packaging also refers to the process of designing, evaluating, and producing packages. Packaging can be described as a coordinated system of preparing goods for transport, warehousing, logistics, sale, and end use.

Packaging and labeling - Wikipedia

A great package will make your product pop. And fall off the shelf (into customers' carts). Get a custom packaging design from 99designs, and our designers will create something you'll love.
