

### **the social determinants of pdf**

The social determinants of health are the economic and social conditions that influence individual and group differences in health status. They are the health promoting factors found in one's living and working conditions (such as the distribution of income, wealth, influence, and power), rather than individual risk factors (such as behavioral risk factors or genetics) that influence the risk ...

### **Social determinants of health - Wikipedia**

Conditions in the places where people live, learn, work, and play affect a wide range of health risks and outcomes. 1 These conditions are known as social determinants of health (SDOH). We know that poverty limits access to healthy foods and safe neighborhoods and that more education is a predictor of better health. 2,3,4 We also know that differences in health are striking in communities with ...
