How to lose weight and hair through stress and poor nutrition By John Walker The Hacker's Diet, notwithstanding its silly subtitle, is a serious book about how to lose weight and permanently maintain

whatever weight you desire. It treats dieting and weight control from an engineering and management standpoint, and provides the tools and an understanding of why they work and how to use them that ...

The Hacker's Diet

Let's face it. Software has holes. And hackers love to exploit them. New vulnerabilities appear almost daily. If you have software - we all do - you need to keep tabs on the latest vulnerabilities.

Great article on securing your Apache server and web apps! Along with using a web application firewall, it's a good idea to use a network firewall like HeatShield (<https://heatshield.io>). HeatShield will install a powerful and secure firewall that prevents unauthorized access to services running on your server, such as SSH and MySQL.

Apache Web Server Hardening and Security Guide

You are not alone, and there are hundreds, if not thousands of people who search for how to hack a Facebook account or how to hack Facebook messenger.. Hacking someone's Facebook account isn't as difficult as most people think.
