Welcome to the web home of the World Chelonian Trust ...Just added - new 56 page section - Native Species Exports From the United States - The American Turtle Trade.

World Chelonian Trust - Turtle and Tortoise Conservation

"Turtles all the way down" is an expression of the problem of infinite regress. The saying alludes to the mythological idea of a World Turtle that supports the earth on its back. It suggests that this turtle rests on the back of an even larger turtle, which itself is part of a column of increasingly large turtles that continues indefinitely (i.e., "turtles all the way down").

Turtles all the way down - Wikipedia

Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.

Protecting Marine Life | NOAA Fisheries

The largest living chelonian is the leatherback sea turtle (*Dermochelys coriacea*), which reaches a shell length of 200 cm (6.6 ft) and can reach a weight of over 900 kg (2,000 lb). Freshwater turtles are generally smaller, but with the largest species, the Asian softshell turtle *Pelochelys cantorii*, a few individuals have been reported up to 200 cm (6.6 ft).

Laniakea, Oahu, Hawaii, is without question the best place in the world to see marine turtles up close. Hawaiian green turtles crawl ashore almost daily to bask amid crowds of tourists and surfers, providing a unique turtle experience and unmatched photo opportunities.

Laniakea, Oahu: Paradise for Turtle Watchers

Sea turtles have graced our oceans for more than 75 million years. These ancient reptiles are among the most fascinating of all marine inhabitants.
